The independence 3 metre Step lift

ALSO KOWN AS THE 65 SERIES

- Stylish
- Modular install
- Safety Approved
- Waterproof
- Cantilever design

pojlock
Lifts

The Independence is designed to be as robust as it is stylish, and is therefore an ideal option for both internal and external environments

With the pump unit integrated within the lift it offers reduced vandalism risk and with no need for a separate control unit location minimises installation time and builders work. The lift can also be relocated and gates rehanded to open either direction, offering great flexibility for the future. The easy to service system means your Independence Steplift will provide reliable and efficient access for many years.

The Eco Through The Floor lift

ALSO KOWN AS THE 20 SERIES

- Elegant
- Unobtrusively
- Exceptional Safety
- Energy efficient
- Wheelchair accessible

pojlock
Lifts

Using an electric motor to transport the wheelchair accessible car between floors within a domestic setting, our Eco Through Floor Lift has significant features and benefits compared to a typical hydraulic drive system, which requires a pump and ram to move the lift

The elegant design fits unobtrusively into the home with the lift being 'called' only when required, leaving the room-in-use free with full floor access.

The Residential Elevator

ALSO KOWN AS THE 25 SERIES

- Smooth
- Shaftless
- Compact
- Intelligent
- Innovative

pollock
Lifts

Available in 3 sizes and 3 cabin heights, you can choose the configuration that best suits your requirements and room dimensions. The Residential Elevator can be installed in any room, according to your desired travel within your home and room floor plans

Quick and easy to install, the lift is located close to the wall but is not attached to the wall. When the lift is not in the room, you can enjoy all of your living space - An impressive addition to any home.
